V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims 1-12	YES
	Claims	NO
Inventive step (IS)	Claims 1-12	YES
	Claims	NO
Industrial applicability (IA)	Claims 1-12	YES
	Claims	NO

2. Citations and explanations (Rule 70.7)

Claim 1 of the present invention relates to porcine uroplakin II (UP II) promoter which has nucleotide sequence set forth as SEQ ID NO.1 and Claim 2 relates to variant of UP II promoter with mutation.

The most relevant prior art might be D1 (Biochemical and Biophysical Research Communication, Vol.293, No.2, pages 862-869, May 2002.).

D1 discloses partial sequence of UP II promoter. However, determination of whole sequence of UP II promoter from the partial sequence disclosed in D1 is not obvious to a skilled person in the art. Therefore, Claim 1 and Claim 2 involve an inventive step. Claims 3 to 12 also involve an inventive step because they are dependent claims of Claim 1 or Claim 2.
